The Napoleon Hill Foundation In order to achieve desired results a simple two-step process must be followed: Thought + Action = Success As a student of Dr. Napoleon Hill for many years, I know that his philosophy works best when it is observable and measurable. It is not always easy to take action, but without action there is no success. Reflect on this for a moment. Great intentions never measure up to the smallest action. However, the tiniest action begins to build a momentum that culminates in your desired success if you build on the previous action daily. 10 Success Secrets pairs Dr. Hill's philosophy with actions that will move you toward success. I suggest that you try a few, keep a log, and watch your success rate grow. Without the action step, you are missing the master key to your dreams. First, chart your course; next, plan your method of travel, and third, step into the journey and begin! As you progress, you can then evaluate what actions work best for you. Look at this book as your treasure map. When you follow it to your destination, you will be rewarded with finding the treasure you seek. To your ultimate and lasting success! -Judith Williamson, Director, Napoleon Hill World Learning Center, Purdue University Calumet
