Partendo dall'esperienza personale dell'autrice, in un linguaggio semplice e divulgativo, l'opera presenta la conoscenza dei Registri Akashici inserita in un contesto contemporaneo. Viene spiegata l'importanza di riuscire ad accedere ai propri Registri per conoscere, o meglio riconoscere, le scelte fatte dalla propria anima e vivere in armonia. La tesi che si vuole sostenere è come la ritrovata connessione alla propria storia animica trasformi la percezione della vita dell'essere umano permettendogli di vivere in armonia con il Tutto. Dopo una breve introduzione storica, il libro procede elencando i benefici derivanti dall'essere in contatto con gli aiutanti invisibili Custodi dei Registri Akashici e ne riporta alcuni messaggi direttamente canalizzati dall'autrice. Questo libro è stato scritto per aiutare e sostenere le persone sensibili che si trovano in difficoltà nel vivere la propria vita sulla Terra. La sua particolarità sta nel trattare un argomento complesso partendo dall'esperienza vissuta dall'autrice con molta semplicità, rendendolo accessibile a tutti. La storia personale diventa universale in una visione di profonda connessione tra esseri umani e Universo.

Quando il cielo si apre possiamo scorgerne le mille sfumature: la luce, i colori, ma anche le ombre e le nuvole che lo attraversano. Letture dall'Akasha: apriti cielo! si sviluppa seguendo la mappa dell'arcobaleno ma anche dei chakra, dal primo che ci connette alla terra fino all'ultimo che ci porta in cielo, muovendosi dal basso verso l'alto. In questo salire, l'autrice propone episodi di vita vissuta, come esempi di esperienze transpersonali, che accadono quando ci si lascia condurre dalla saggezza della propria anima. Si diventa così creatori responsabili della propria realtà mantenendo la sensazione di essere sempre ben accompagnati. Nella seconda parte del libro troviamo le risposte dei Maestri e delle Guide agli interrogativi più comuni: vita, morte, paura, abbandono, amore, abbondanza... dalle letture dei Registri Akashici arrivano le informazioni che ci permettono di ampliare la nostra coscienza e indirizzarci verso la Visione più Grande. Letture dall'Akasha: apriti cielo! è una lettura leggera e profonda come la Fonte da cui è stato ispirato, può essere letto dall'inizio o aperto a caso come "rescue remedy" in un momento in cui si sente di aver bisogno di una risposta, di un conforto.

An authorized translation of this classic work, re-edited, beautifully typeset and designed, from a professional publisher dedicated to high-quality editions of Rudolf Steiner's books and lectures. The Anthroposophy of Rudolf Steiner is not a theoretical system, but the results of research based on direct observation. As Steiner's research was so vast and conducted over such a long period of time, no single book can be said to contain the whole of his spiritual teaching. However, of all his books Occult Science comes closest. Steiner even referred to it as "an epitome of anthroposophic Spiritual Science." The book systematically presents the fundamental facts concerning the nature and constitution of the human being and, chronologically, the history of the universe and humankind. Whereas the findings of natural science are derived from observations made through the senses, the findings of Spiritual Science, or Anthroposophy, are "occult" inasmuch as they arise from direct observation of realities hidden to ordinary perception. And yet these elements of humanity and the universe form the foundation of the sense world. A substantial part of Occult Science is taken up with a description of the preliminary training needed to make such spiritual observations. Given his energetic involvement in practical initiatives and extensive lecturing, Steiner had little time to write books. Of those he did write, four titles form an indispensable introduction to his later teaching: The Philosophy of Freedom (CW 4); Theosophy (CW 9); Knowledge of the Higher Worlds (CW 10); and Occult Science: An Outline (CW 13). Occult Science: An Outline is a translation from German of Die Geheimwissenschaft im Umriss (GA 13).

Starting from the personal experience of the author, in a simple and popular language, the work presents the knowledge of the Akasha in a contemporaneous context.The thesis that the author supports is that a recovered connection to our soul history transforms our life leading us to leave in perfect harmony with the Whole. After a short historical introduction, the book continues explaining the benefits coming from being in contacts with the invisible helpers guardians of the Akashic Records and reports some messages directly channelled by the author.The book explains the ways to access the Akashic Records and how to be facilitated to read them for yourself and the others.The work is a manual of information about the Akashic Records and a loving incentive to inner growth.

In this book we want to give a description of some parts of the supersensible world. Whoever wants to admit only the sensory world will consider this description a vacuous product of the imagination. But whoever wishes to seek the paths that lead out of the world of the senses will soon come to understand that human life acquires value and meaning only if one penetrates with one's eyes into another world. This penetration does not distract man, as many fear, from "real" life. It is only in this way that he learns to stand firm and secure in life. He learns to know its causes, while, if he ignores them, he gropes like a blind man through its effects. Only through knowledge of the supersensible world does the sensible "reality" acquire meaning. Therefore, this knowledge increases, not diminishes, our capacity for life. Only he who understands life can become a truly "practical" man.

Looks at The Book of the Dead, the pyramids, hieroglyphics, magical instruments, prayers, symbols, and invocations of ancient Egypt.

This book is written in a simple and easy-to-understand language by scientist-biologist Dr. Vladimir Antonov. It covers the essential issues: what is God, the place of human being in the Evolution of the Universal Consciousness, principles of forming and correction of destiny, ways of attaining health and happiness, most effective methods of psychic self-regulation, about spiritual development and cognition of God.

"Leading thoughts" and letters for members of the Anthroposophical Society (CW 26) "The leading thoughts here given are meant to open up subjects for study and discussion. Points of contact with them will be found in countless places in the anthroposophic books and lecture courses, so that the subjects thus opened up can be enlarged upon and the discussions in the groups centered around them." --Rudolf Steiner This key volume contains Rudolf Steiner's "leading thoughts," or guiding principles, and related letters to members of the Anthroposophical Society. Using brief, aphoristic statements, Steiner succinctly presents his spiritual science as a modern path of knowledge, accompanied by "letters" that expand and contextualize the guiding thought. These 185 thoughts constitute invaluable, clear summaries of Steiner's fundamental ideas--indeed, they contain the whole of Anthroposophy. They are intended not as doctrine, but to stimulate and focus one's study and discussion of spiritual science. "Anthroposophy is a path of knowledge to guide the Spiritual in the human being to the Spiritual in the universe... "Anthroposophy communicates knowledge that is gained in a spiritual way... "There are those who believe that with the limits of knowledge derived from sense perception the limits of all insight are given. Yet if they would carefully observe how they become conscious of these limits, they would find in the very consciousness of the limits the faculties to transcend them." --Rudolf Steiner This volume is a translation of Anthroposophische Leitsätze, Der Erkenntnisweg der Anthroposophie--Das Michael-Mysterium (GA 26).

In this concise series of lectures, Rudolf Steiner shows how the human senses reveal the mysterious world of the will, which is at once a spiritual and physical phenomenon. The senses act as a portal connecting our physical and etheric bodies with what Steiner refers to as worlds of "all-pervading will" and "all-pervading wisdom." He elaborates this theme, giving some unexpected and delightful insights into the senses of hearing and sight, and in particular how we experience colour. Steiner suggests that divine spiritual beings had different intentions for the formation of physical human beings, but that adversary powers caused disruption, leading to a more materialized constitution. He describes disorders in the connections between the human physical, etheric, astral and ego bodies, and the ill effects of one aspect overpowering the others. He gives insight into human glandular secretions, and why we need to eat and digest--also connected to the intervention of adversary beings.
