This semi-autobiographical tale is about a black man who wins scholarships to prestigious schools but comes to see himself as an "artificial nigger." He drops out, goes to jail, then returns to the black community he has failed, where he embarks on a voyage of self-discovery.

This book concentrates on the aesthetic and cultural force of Harlem, which inspired writers from Sherwood Anderson to Tom Wolfe.

This anthology is designed to introduce the reader to the contours and content of African American Studies. The text and readings included here not only impart information but seek as their foremost goal to precipitate in the reader an awareness of the complex and changing character of the African American experience-its origins, developments, and future challenges. The book aims to engage readers in the critical analysis of a broad spectrum of subjects, themes, and issues-ancient and medieval Africa, Western European domination and African enslavement, resistance to oppression, African American expressive culture, family and educational policies, economic and political matters, and the importance of ideas. The materials included in this anthology comprise a discussion of some of the fundamental problems and prospects related to the African American experience that deserve attention in a course in African American Studies. African American Studies is a broad field concerned with the examination of the black experience, both historically and presently. Hence, the subjects, themes, and issues included in this text transcend the narrow confines of traditional academic disciplinary boundaries. In selecting materials for this book, Floyd W. Hayes was guided by a developmental or historical approach in the general compilation of each section's readings. By doing so, the author hopes that the reader will be enabled to arrive at a critical understanding of the conditions and forces that have influenced the African American experience. A Collegiate Press book

Every six months or so, a study reports about our inability to educate black males. Yet, after reading Ribbin', Jivin, and Playin' the Dozens: The Persistent Dilemma in Our Schools, teachers learned how to teach black males. Through 99 Realities and other examples, Ribbin', describes, discusses, and explains black male street corner language and behavior and how it is played out in the classroom. Too often, teachers misunderstand and misinterpret their black male student's language and behavior resulting in their black male students being referred to special education or considered a discipline problem disproportionate to their numbers in the school. Ribbin' will provide you with the educational insight to successfully educate black males-the information woefully lacking in contemporary education courses. Authentic examples are provided that demonstrates how some teachers handled challenging situations with their black male students to help you develop your own teaching style relative to your persona and student population. When you open Ribbin', Reality 1 is a must read, it recounts my first day of substitute teaching in the N. Y. C. Public Schools and what happened to me that Friday morning. I was so discouraged, I considered suicide that weekend because I always wanted to be a teacher and, after one day, I was a failure. However, read how I rebounded on Monday, and turned things around. To enhance your ability to teach black males, Chapter 8 about dress and grooming for teachers is a must. In brief, respect and feelings about yourself and your students is demonstrated by dressing professionally, at minimum, neat and clean. Your students expect you to dress well. Your students will keep a record of what you wear on what day and whether that stain has been cleaned away! Indeed, your students will compare notes on what car you drive, the watch you wear and your dress style. Chapter 5 Jive Lexicon and Verbal Communication is about words students may use to dupe or test you. Students must learn Standard English; the sine qua non to for economic success. Your students need a Standard English teaching model to emulate. However, teachers should learn the language their students use. It is viewed as "barrier busting" when students observe you trying to be hip and use their language-of course, this means "acceptable vocabulary." Moreover, it may be appropriate for your students to use the vernacular depending upon the subject you teach. Chapter 6 about classroom contests provides information about the "games" some students use to con, provoke, or test your "street" knowledge. "Playing the Dozens" from an historical perspective to how it plays out negatively in classrooms is described and explained. If you are unfamiliar with "Playing the Dozens"-also known by other names; best you learn. Hence, examples of teachers positively handling the dozens are presented. Reading Chapter 7 will help you through my Four Step Plan for Classroom Management and School Discipline. You need to get order for you to teach successfully. Your primary responsibility as a teacher is to figure out how to achieve an orderly and safe classroom so that your students can relax and allow you to teach them. If you wish to become a

successful teacher, buy Ribbin'. If you want to be told how to become a teacher, do not buy Ribbin'. If you see yourself as a professional teacher, and willing to change your teaching behavior first, in order to get your students to change their behavior, purchase Ribbin'. In sum, a well-designed lesson plan will not ensure classroom success. Teachers must make educational and behavioral demands on students, black males in particular. Ribbin' demystifies this "persistent dilemma." Without a question, black males can and must be taught Standard English, mathematics, and the so-called middle class skills needed to make it economically in the U. S.

A searing chronicle of the life of a young ex-convict and heroin addict in 1960's Harlem, an unsparing portrait of a man who couldn't free himself from the horrors of addiction Blueschild Baby takes place during the summer of 1967—the summer of race riots all across the nation; the Summer of Love in the Haight Ashbury; the summer of Marines dying near Con Thien, across the world in Vietnam—but the novel illuminates the contours of a more private hell: the angry desperation of a heroin addict who returns to his home in Harlem after being in prison. First published in 1970, this frankly autobiographical novel was a revelation, a stunning depiction of a marginal figure, marked literally and figuratively by his drug addiction and navigating a predatory underground of junkies and hustlers—and named George Cain, like his author. Now with a new preface by acclaimed writer Leslie Jamison, this is an unvarnished conjuring of the tyranny of dependence: its desperation, its degradation, its rage and rebellion; the fragile, unsettled, occasional shards of hope it permits; the strange joys of being alive and young and lost and hooked and full of feverish determination anyway.
