Explains how to service and repair Briggs & Stratton 2 cycle engines.

Before choosing sheet metal or suspension components, a motorcycle builder must first make critical frame decisions. Whether the rider opts for hard-tail, soft-tail, or twin shock, the choice affects the bike's cost, appearance, and use. In his third and final book on building V-twin motorcycles, author Tim Remus discusses the pros and cons of various frame designs, the right frame for the reader's use and budget, and the best equipment for the type of frame chosen. Photos illustrate the latest offerings from the aftermarket and how builders are using and equipping the latest frame designs. Chapters address topics such as frame design and construction material, triple trees and fork tubes, shock absorbers, brake components, wheels and tires, and motorcycle electronics. Hands-on sections teach the reader about drive-train alignment, squaring the frame, and going from a bare frame to a rolling chassis with an installed engine.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

Drawn to the exotic island of Puerto Rico by the diaries of an ancestor who traveled there with Ponce de León, Ana Cubillas becomes involved with enamored twin brothers Ramón and Inocente before convincing them to claim a sugar plantation they have inherited. By the author of Almost a Woman. 75,000 first printing.

"A joy to read." —New York Times Book Review From beloved bestselling author Ursula Hegi, a new novel about three mothers, set on the shores of the Nordsee, perfect for fans of Water for Elephants and The Light Between Oceans. In the summer of 1878, the Ludwig Zirkus arrives on Nordstrand in Germany, to the delight of the island's people. But after the show, a Hundred-Year Wave roars from the Nordsee and claims three young children. Three mothers are on the beach when it happens: Lotte, whose children are lost; Sabine, a Zirkus seamstress with her grown daughter; and Tilli, just a girl herself, who will give birth later that day at St. Margaret's Home for Pregnant Girls. After the tragedy, Lotte's husband escapes with the Zirkus, while she loses the will to care for their surviving son. Tilli steps in, bonding with him in a way she isn't allowed to with her own baby, taken away at birth. Sabine, struggling to keep her childlike daughter safe in the world, forms a complicated friendship with Lotte. But the mothers' fragile trio is threatened when Lotte and her husband hatch a dangerous plan to reunite their family, and Tilli and Sabine must try to find a way to pull them back to reality. As full of joy and beauty as it is of pain, and told with the luminous power that has made Ursula Hegi a beloved bestselling author for decades, The Patron Saint of Pregnant Girls is a shining testament to the ways in which women hold each other up in the most unexpected of circumstances.

"All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series
