Step 1, Make sure that your printer is plugged in and turned on. If your printer requires an Ethernet connection to access the Internet, you'll also need to use an Ethernet cable to plug the printer into your router. Step 2, Check to see if your printer has installation software. If your printer came with a CD, chances are that you'll need to insert the CD into your computer and allow the installation program to run before you can set up the printer. This is unlikely for modern printers, but ...

Update: The Canon Hand Strap E1 has been discontinued. The Canon Hand Strap E2 is available, but it uses a different method for connecting to the camera body (it connects to a camera using the tripod mount and neck strap loop). Just as a neck strap keeps a camera attached to your neck, the Canon Hand Strap E1 keeps a camera attached to your hand.

Installation. Installation of the GP-E1 is simple and straight forward.

The unit simply screws into the extension system terminal after removing the terminal cover.

There is an alignment pin at the top of the GPS unit which makes aligning the unit straightforward.

Total time to install the GP-E1 is less than a minute and is dead simple.
