Gerald of Wales was among the most dynamic and fascinating churchmen of the twelfth century. A member of one of the leading Norman families involved in the invasion of Ireland, he first visited there in 1183 and later returned in the entourage of Henry II. The resulting *Topographia Hiberniae* is an extraordinary account of

Bookmark File PDF Gerald Of Wales

his travels. Here he describes landscapes, fish, birds and animals; recounts the history of Ireland's rulers; and tells fantastical stories of magic wells and deadly whirlpools, strange creatures and evil spirits. Written from the point of view of an invader and reformer, this work has been rightly criticized for its portrait of a primitive land, yet it is also one of the most important sources for what is known of Ireland during the Middle Ages.

"The autobiography of Gerald of Wales, translated from the Latin, offers a compelling picture of medieval life"--Provided by publisher.

This study of Gerald discusses the political path he had to tread and portrays him as an example of the medieval world.

Gerald of Wales (c.1146–c.1223), widely

Bookmark File PDF Gerald Of Wales

recognized for his innovative ethnographic studies of Ireland and Wales, was in fact the author of some twenty-three works which touch upon many aspects of twelfth-century life. Despite their valuable insights, these works have been vastly understudied. This collection of essays reassesses Gerald's importance as a medieval Latin writer and rhetorician by focusing on his lesser-known works and providing a fuller context for his more popular writings. This broader view of his corpus brings to light new evidence for his rhetorical strategies, political positioning and usage of source material, and attests to the breadth and depth of his collected works.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The story of an ambitious Norman-Welsh priest who wrote, often angrily and always vividly, about his troubles and about the people and places he knew. His books provide the most detailed evidence and the shrewdest insights we have into twelfth century Wales, its social customs, its agriculture, its leading figures and its religious life.
