International humanitarian law (IHL), also referred to as the laws of armed conflict, is the law that regulates the conduct of war (jus in bello). It is a branch of international law which seeks to limit the effects of armed conflict by protecting persons who are not participating in hostilities, and by restricting and regulating the means and methods of warfare available to combatants .

*International humanitarian
law - Wikipedia*

International humanitarian law is a set of rules which

INTRODUCTION. Before stating the terms of the problem we intend to examine, it is necessary first of all to explain what is meant by "the imperative necessity of implementing international humanitarian law". 1. The imperative necessity of implementing international humanitarian law. As is well known, international humanitarian law is the set of legal rules which States

are obliged to respect and which are designed to protect the victims of international or non-international armed conflicts.

The implementation of international humanitarian law and ...

Initially, the laws of war, also known as jus in bello and more recently as the law of armed conflict or international humanitarian law (IHL), 1 only regulated wars between States, while internal violence was unregulated and remained entirely within the purview of the State concerned. 2 This distinction can be
