Published to accompany the 1994 exhibition at The Museum of Modern Art, New York, this book constitutes the most extensive survey of modern illustrated books to be offered in many years. Work by artists from Pierre Bonnard to Barbara Kruger and writers from Guillaume Apollinaire to Susan Sontag. An important reference for collectors and connoisseurs. Includes notable works by Marc Chagall, Henri Matisse, and Pablo Picasso.

Throughout history, many people have escaped to nature either permanently or temporarily to rest and recharge. Richard L. Proenneke, a modern-day Henry David Thoreau, is no exception. Proenneke built a cabin in Twin Lakes, Alaska in 1968 and began thirty years of personal growth, which he spent growing more connected to the wilderness in which he lived. This guide through Proenneke's memories follows the journey that began with One Man's Wilderness, which contains some of Proenneke's journals. It continues the story and reflections of this mountain man and his time in Alaska. The editor, John Branson, was a longtime friend of Proenneke's and a park historian. He takes care that Proenneke's journals from 1974-1980 are kept exactly as the author wrote them. Branson's footnotes give a background and a new understanding to the reader without detracting from Proenneke's style. Anyone with an interest in conservation and genuine wilderness narratives will surely enjoy and treasure this book.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product

innovation, has become the gold standard against which all other outdoor-industry awards are measured.

This best-selling memoir from Richard Proenneke's journals and with firsthand knowledge of his subject and the setting, Sam Keith has woven a tribute to a man who carved his masterpiece out of the beyond. To live in a pristine land unchanged by man . . . to roam a wilderness through which few other humans has passed . . . to choose an idyllic site, cut trees by hand, and build a log cabin. . . to be self-sufficient craftsman, making what is needed from materials available...to be not at odds with the world, but content with one's own thoughts, dreams and company. Thousands have had such dreams, but Richard Proenneke lived them. This book is a moving account of the day-to-day explorations and activities Dick carried out alone...alone in the wilderness...and the constant chain of nature's events that kept him company.

This book provides an introduction to the study of meaning in human language, from a linguistic perspective. It covers a fairly broad range of topics, including lexical semantics, compositional semantics, and pragmatics. The chapters are organized into six units: (1) Foundational concepts; (2) Word meanings; (3) Implicature (including indirect speech acts); (4) Compositional semantics; (5) Modals, conditionals, and causation; (6) Tense & aspect. Most of the chapters include exercises which can be used for class discussion and/or homework assignments, and each chapter contains references for additional reading on the topics covered. As the title indicates, this book is truly an INTRODUCTION: it provides a solid foundation which will prepare students to take more advanced and specialized courses in semantics and/or pragmatics. It is also intended as a reference for fieldworkers doing primary research on under-documented languages, to help them write grammatical descriptions that deal carefully and clearly with semantic issues. The approach adopted here is largely descriptive and non-formal (or, in some places, semi-formal), although some basic logical notation is introduced. The book is written at level which should be appropriate for advanced undergraduate or beginning graduate students. It presupposes some previous coursework in linguistics, but does not presuppose any background in formal logic or set theory.
