How to Create and Use Indexes in Oracle Database | Oracle ...

So what is an index in Oracle SQL? An index is an object in the database that allows you to find specific data in a table faster. Like the index section in a book, they take up a bit more space, but the benefits that they bring are often worth it.

Access Free Oracle Pl Sql Index Of

Also, like in a book, indexes work best when you have a specific term to search for. You don't need to ask Oracle to use an index if it's already there.
