Space Almanac: Thousands of Facts, Figures, Names, Dates ...
There are more stars in space than there are grains of sand in the world. There are 10 times more stars in the night sky than grains of sand on the Earth, with 70 sextillion stars being visible from Earth through a telescope. To put that in numbers, 70 sextillion is this: 70,000,000,000,000,000,000.
