Causes of Tourette's.

The cause of Tourette's syndrome is unknown.

It's thought to be linked to a part of the brain that helps regulate body movements. For unknown reasons, boys are more likely to be affected by Tourette's syndrome than girls.

[Tourette's syndrome - NHS](#)

Tourette

Tourette Syndrome (TS) is a genetic, neurological disorder that occurs during childhood. Not all children that inherit the TS gene display the traits that are associated with the disorder. Boys more commonly inherit the gene associated with TS. The ratio of girls vs. boys being diagnosed with TS is 1:4.
