The CVP-209 featured "key-off sampling" and "string resonance," which recorded the transformations in sound that normally occur on a real grand piano, such as the slight change in sound when you take your hand off the key, or the resonance between piano strings. The combination of this tone generation with key action made a natural, lingering sound and reverberation a reality.

An introduction to linear time playing. The first section contains basic exercises for linear playing skills: voice coordination, dynamic balance, accenting, and more. The second section deals with the development of time feels in the linear style, including 4/4, half-time, shuffle, and odd meter feels.
